ABOUT

AI Developer skilled in implementing ML models and algorithms, developing chatbots and FineTuning LLMs. Experienced in full-stack web development, microcontroller programming and IoT with Arduino, AVR, and WiFi modules.

Interested in **Agentic AI** and passionate about **NLP** methods and **LLMs**, with a strong focus on **self-driven projects** and **continuous learning**.

Eager to apply my knowledge to create innovative solutions in machine learning and AI.

PROJECTS

2025

DarkalaamAI

- A chat app using AI to practice English conversation
- Create virtual firends using AI with specific hobbies and characteristics
- Uses PostgreSQL & Langchain to manage agents and chat memory
- Uses OpenAI API to chat
- Visit: Darkalaam.com
- Demo available [Here](#)

Book Query

- Uses Langchain to process and find similar books by vector search
- Uses ChromaDB to store and search books
- Uses FastAPI to serve the model
- Uses gpt-4o & Openai Embedding models
- Demo available [Here](#)

2024

ManshoorAI

- FineTuned GPT2 using HuggingFace
- Used Tensorflow & Keras to implement language model and generate poem
- Supports different inference methods (Top-K, Random Sampling, Greedy)
- Includes a web interface for user interaction
- Demo available [Here](#)

HandPaint

- Captures webcam images using OpenCV and applies image processing
- Detects hand gestures with MediaPipe

2016

AtreSaba

- An app to provide Persian poems for reading and downloading
- Uses the Ganjoor online library
- App available [Here](#)

More projects on my portfolio [Here](#)

SKILLS

AI / ML

Familiar with NLP concepts, LLM models, FineTuning using Hugging Face(PEFT/LoRA), ChatBot and RAG implementation using LangChain

Implemented ML algorithms: SVM, KNN, PCA, K-Means, Decision Tree and Neural Networks

ML Frameworks and Tools:

Advanced: LangChain, TensorFlow, Keras, ScikitLearn

Intermediate: OpenCV, Pandas, Numpy

Familiar with: Pytorch, NLTK, mlflow

Other Tools

Git, Docker, RabbitMQ

Programming Languages

Javascript (Advanced)

Python (Advanced)

Java (Intermediate)

C/C++ (Intermediate)

Soft skills

Creativity, Responsibility, Teamwork, Problem-Solving

CERTIFICATES

- Machine Learning Specialization ([Stanford & Coursera](#)), 2022
 - Tensorflow Developer Professional ([Coursera](#)), 2022
 - Advanced Computer Vision with Tensorflow ([Coursera](#)), 2023
-

EDUCATION

KHU, Iran - MSc. Artificial Intelligence (Withdrawal) 2018 - 2021

QUT, Iran - BSc. Hardware Engineering 2012 -2017
