ABOUT

AI Engineer skilled in implementing ML models and algorithms, developing chatbots and FineTuning LLMs. Experienced in full-stack web development, microcontroller programming and IoT with Arduino, AVR, and WiFi modules. Eager to apply my knowledge to implement machine learning solutions.

WORK EXPERIENCE

AI Security Associate at Diaco (May 2025 - Sep 2025)

- Local deployment of common LLMs using different engines like Ollama and llama.cpp
 - [R&D] Research on common attacks on machine learning, especially LLMs.
 - Implement common machine learning attacks using Tensorflow and Pytorch (Sponge Attack, Evasion Attack, Information Embedding, etc.) to investigate the remedies.
 - Optimizing and automating Pentest pipeline using LLMs
-

FREELANCE PROJECTS

2025

- **DarkalaamAI**
 - Chat app using AI that allows users to practice English conversations and highlights mistakes
 - Secure API server using JWT tokens, login using phone number and OTP codes
 - Uses PostgreSQL & Langchain to manage agents and chat memory
 - Uses OpenAI API to chat
 - Visit: Darkalaam.com
- **Book Recommender Using VectorDBs**
 - Uses Langchain to process and find similar books by vector search
 - Uses ChromaDB to store and search books
 - Uses FastAPI to serve the model

2024

- **ManshoorAI**
 - FineTuned GPT2 using HuggingFace
 - Used Tensorflow & Keras to implement language model and generate verses
 - Implemented different inference methods (Top-K, Random Sampling, Greedy)
 - Includes a web interface for user interaction
- **HandPaint (OpenCV & MediaPipe)**
 - Captures webcam images using OpenCV and applies image processing
 - Detects hand gestures with MediaPipe

More projects & demos available [Here](#)

SKILLS

AI / ML

Familiar with NLP concepts, LLM models, FineTuning using Hugging Face(PEFT/LoRA), ChatBot and RAG implementation using LangChain and LangGraph

Implemented ML algorithms: SVM, KNN, PCA, K-Means, Decision Tree and Neural Networks

ML Frameworks and Tools:

Advanced: LangChain, Pytorch, TensorFlow, Keras, ScikitLearn

Intermediate: OpenCV, Pandas, Numpy

Familiar with:NLTK, MLflow

Other Tools

Git, Docker, RabbitMQ, Redis

Programming Languages

Javascript (Advanced)

Python (Advanced)

C/C++ (Intermediate)

Java (Intermediate)

Soft Skills

Creativity, Responsibility, Teamwork, Problem-Solving

CERTIFICATES

- Machine Learning Specialization (Verify at: [Stanford & Coursera](#)), 2022
 - Tensorflow Developer Professional (Verify at: [Coursera](#)), 2022
 - Advanced Computer Vision with Tensorflow (Verify at: [Coursera](#)), 2023
 - LLM FineTuning & Application Development (Maktabkhooneh), 2025
 - MLOps (Hamrahe-Aval Academy), 2025
-

EDUCATION

KHU, Iran - MSc. Artificial Intelligence (Withdrawal) 2018 - 2021

QUT, Iran - BSc. Hardware Engineering 2012 -2017
