ABOUT

AI Engineer skilled in implementing ML models and algorithms, developing chatbots and FineTuning LLMs. Experienced in full-stack web development, microcontroller programming and IoT with Arduino, AVR, and WiFi modules. Eager to apply my knowledge to securing machine learning solutions.

WORK EXPERIENCE

AI Security Associate at Diaco (May 2025 - Sep 2025)

- Local deployment of common LLMs using different engines like Ollama and llama.cpp
 - [R&D] Research on common attacks on machine learning, specially LLMs
 - Implement common machine learning attacks using Tensorflow and Pytorch (Sponge Attack, Evasion Attack, Information Embedding, ...)
 - Optimizing Pentest pipeline using AI
-

FREELANCE PROJECTS

2025

DarkalaamAI

- Chat app using AI to practice English conversation
- Secure API server using JWT tokens, login using phone number and OTP codes
- Uses PostgreSQL & Langchain to manage agents and chat memory
- Uses OpenAI API to chat
- Visit: Darkalaam.com

Book Recommender Using RAG

- Uses Langchain to process and find similar books by vector search
- Uses ChromaDB to store and search books
- Uses FastAPI to serve the model

More projects & demos available [Here](#)

2024

ManshoorAI

- FineTuned GPT2 using HuggingFace
- Used Tensorflow & Keras to implement language model and generate poem
- Supports different inference methods (Top-K, Random Sampling, Greedy)
- Includes a web interface for user interaction

HandPaint (OpenCV & MediaPipe)

- Captures webcam images using OpenCV and applies image processing
- Detects hand gestures with MediaPipe

SKILLS

AI / ML

Familiar with NLP concepts, LLM models, FineTuning using Hugging Face(PEFT/LoRA), ChatBot and RAG implementation using LangChain

Implemented ML algorithms: SVM, KNN, PCA, K-Means, Decision Tree and Neural Networks

ML Frameworks and Tools:

Advanced: LangChain, TensorFlow, Keras, ScikitLearn

Intermediate: OpenCV, Pandas, Numpy

Familiar with: Pytorch, NLTK, MLflow

Other Tools

Git, Docker, RabbitMQ

Programming Languages

Javascript (Advanced)

Python (Advanced)

Java (Intermediate)

C/C++ (Intermediate)

Soft Skills

Creativity, Responsibility, Teamwork, Problem-Solving

CERTIFICATES

- Machine Learning Specialization ([Stanford & Coursera](#)), 2022
 - Tensorflow Developer Professional ([Coursera](#)), 2022
 - Advanced Computer Vision with Tensorflow ([Coursera](#)), 2023
 - LLM Programming & FineTuning (maktabkhooneh), 2025
-

EDUCATION

KHU, Iran - MSc. Artificial Intelligence (Withdrawal) 2018 - 2021

QUT, Iran - BSc. Hardware Engineering 2012 -2017
